## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

25X1D

25X1D

A probable military storage area is located 3 kilometers (km) northwest of the center of Suchan (Figure 1).

The area covers approximately 225 acres and contains 1 administration building, 4 barracks, 4 storage buildings, 15 probable storage buildings, 19 support buildings, 1 athletic field, and 1 AAA site (Figures 2 and 3).

The area has been covered on KEYHOLE missions of interpretable quality photography. Comparative analysis of the area from

the initial coverage in [REDACTED] indicates that 4 storage buildings were constructed between [REDACTED]. One of the 4 storage buildings was removed between [REDACTED]. A figure-8 driver-training course was visible in [REDACTED] but not on [REDACTED] coverage. The AAA site was first observed on the [REDACTED] coverage. The overall level of activity has remained consistently light.

## DESCRIPTION OF INSTALLATION

### Railroad Service

Rail service is available in Suchan.

### Road Service

A secondary, probably all-weather road connects this area with Suchan.

### Administration and Troop Housing Area

Area D contains 1 administration building, 4 barracks and 4 support buildings. The area was constructed prior to [REDACTED] and appears occupied on all coverage.

### General Storage Area

Area E1 is fenced and contains 4 storage buildings and 2 support buildings. One storage building and 2 support buildings were constructed prior to [REDACTED]. Between [REDACTED] four additional storage buildings were constructed. Between [REDACTED] one of the 4 additional storage buildings was removed.

Area E2 contains 15 probable storage buildings and is probably secured by a fence. It was constructed prior to [REDACTED].

### Explosives Storage Area

A probable industrial explosives storage area is located 12 km east-southeast of this installation.

### Other Buildings

Thirteen support buildings are dispersed throughout the area.

### Athletic Field

Area K is an athletic field.

### Driver-Training Area

A figure-8 driver-training circuit was observed on the [REDACTED] coverage; however, on good-quality, small scale photography of [REDACTED] the circuit is no longer visible.

### Artillery Emplacement (Batteries)

Area Q is an AAA site with 5 positions. This site was first observed in [REDACTED]. Occupancy of the site is undetermined.
